

What's needed to participate in a NISA event?

First of all the most important thing everyone **MUST** bring is safety!! Safety comes in several ways. Eye and ear protection, gun handling and safe target engagement.

-Eye and ear protection are mandatory for all participants and spectators. Yes spectators are welcome.

-Safety. These courses involve drawing from a holster and shooting on the move. While some courses may shoot all targets from one position, many move you to several locations or engaging targets as you move through the course. For this reason safety and gun handling is paramount!. The gun must always be pointed in a safe direction.

-A 9mm or larger auto loading (semi-automatic) or revolver are required. The most common calibers are 9mm, .40 caliber, .45 caliber.

-Some of the most common handguns are Glocks, Smith and Wesson M&P, Springfield XD, H&K. Any factory handgun of 9mm or greater will work. Higher calibers such as .357, .44 etc. are not appropriate for this type of action shooting.

-A strong side (hand you would draw with) holster mounted to you belt with a guard that covers the trigger. Must holsters such as Uncle Mikes, Fobus, etc. fit this requirement and are available from most retail outlets. The trigger cannot be seen when in the holster.

-Four magazines and six speed loaders for you revolver shooters will be needed as some stages can be up to; but no larger than 32 rounds.

-Ammo. Courses run about 120-200 rounds, so bring enough ammo. Ammo is not for sale at the range.

-The shooting starts at 10:00am with a mandatory shooter meeting at 9:45. Registration begins at 9:00. If this is your first time, please be sure to tell the

registration desk so you get your discount and so you can be placed on a squad with veterans who can teach you the ropes.

-Bring snacks and water, as it can get very hot from June-October. Other months you may need a sweat shirt, so dress appropriately.

-Shooting usually finishes around 1:30-2:00pm. When finished, we ask that you and your team mates "tear down" your last stage. This takes 10 minutes or so.

-Appropriate dress not only means for the current weather, but for presence as well. Torn shirts, gang related articles, rude or vulgar printings on shirts and inappropriate language will not be tolerated. The Match Director has full control over the determination of these items and has the right to refuse anyone from participating.

Now, come out and have some of the most fun you can have with a handgun. I promise you won't be disappointed.
